

A Blue vision for a Green future

The **100% electric**
CTE range is born

The revolution that opens up
new opportunities for those
who operate in aerial work

A new challenge. For us and for the world.

At CTE we have been providing **innovative** solutions since 1981 to make working at height **simple and safe**, and now more than ever our company recognizes the need to offer **sustainable** technologies.

Always innovate.

In over 40 years in the lifting industry, we have continuously introduced innovations, patents and world premieres. Today, thanks to the synergy with electric vehicle manufacturers, a new solution is born that is able to meet the **environmental sustainability** requirements required by the most recent objectives defined by the international community.

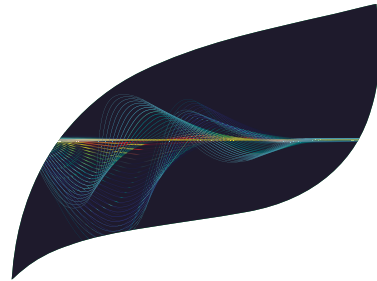

We want to do our part to offer a better world to the new generations.

The advantages

Accessibility

Able to work in areas with limited traffic accessibility

Silence

No noise when operating

Versatility

Able to work day and night, without causing any disturbance

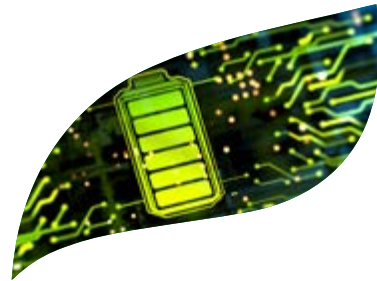

Autonomy

Designed for a prolonged working autonomy

Simplicity

Reduction of management and maintenance costs

Duration

Long-lasting batteries to optimize working at height

Aerial work. Simple and sustainable.

Explore CTE's green range for **sustainable** aerial work.

Zero emissions, zero noise, full productivity.

CTE truck-mounted range

RANGE **17 - 20 m**

 **MP 20 EV** / full electric on e-carry / **new autumn 2022**

 **B LIFT 17 EV** / full electric on e-carry / **new spring 2023**

B-LIFT 17 E / Hybrid on ISUZU-LKW

CTE track-mounted range

RANGE **16 - 27 m**

TRACCESS 270 / Hybrid

 **TRACCESS 230 E** / electric

 **TRACCESS 170 E** / electric

 **TRACCESS 160 E** / electric / **new autumn 2022**
